

When boat cover is in place, rest the Lower Cradle halves on the fore and aft deck as illustrated above.

Position the spar carrier on the deck, fore and aft of the boat. Fit spars into place (cord not included).

Place the spars appropriately in the slots and fit the Upper Cradle in place, securing the spars between the Cradle halves.

Slot fittings for sail bags and tubes can be cut out. Instructions can be found on the second sheet.

Place second boat on top of the cradle.

Position the second boat on Upper Cradle section and fit launch trolley on top. Carefully secure the boats ready to travel.
