[sales@tridentuk.com](mailto:sales@tridentuk.com) or 0191 4901736

And check out [www.tridentuk.com](http://www.tridentuk.com) for more great sailing kit and ideas

### Pack Contains:

- 1x ILCA Harken vang base
- 1x 16mm Double block w/becket
- 1x ILCA block & vang key
- 1x 4mm Kicker control line
- 1x 3mm D12 Kicker strop

Step 1 - Start by tying a bowline to the top of the double block. Run the line through the block and vang key as per the picture.

Step 2 - Pass the line down and around the front sheave of the vang base.

Step 3 - Tie the loose end to the bottom of the single block and key using a bowline.

Step 4 - Start the kicker cascade off by tying a bowline to the becket on the double block.

Step 5 - Run the line back and forth through the blocks, starting from the back of the vang base, working towards the cleat.

*Take time to ensure you don't get the ropes twisted and wrapped together.*

Step 6 - Lead the line down from the final block and around the built in sheave. Pass the line through the eye and cleat and tie off.

*You can make a handle using the daisy chain method or using some PVC tube.*
